

MASS Roof Rack Rails

Ford Bronco 2021-present

4 Door only - Hardtop only

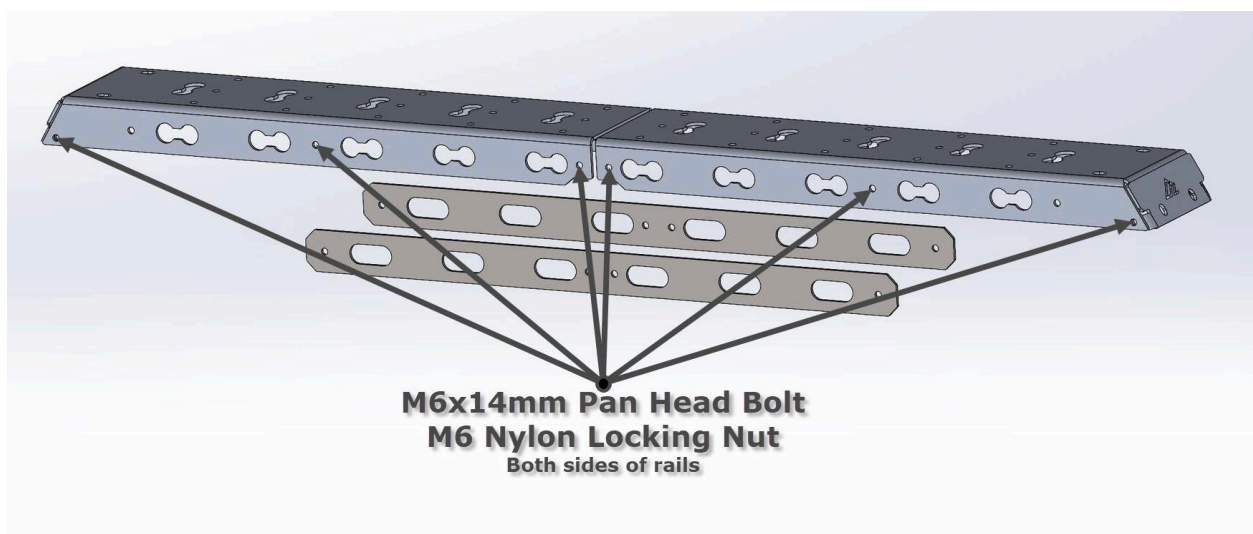

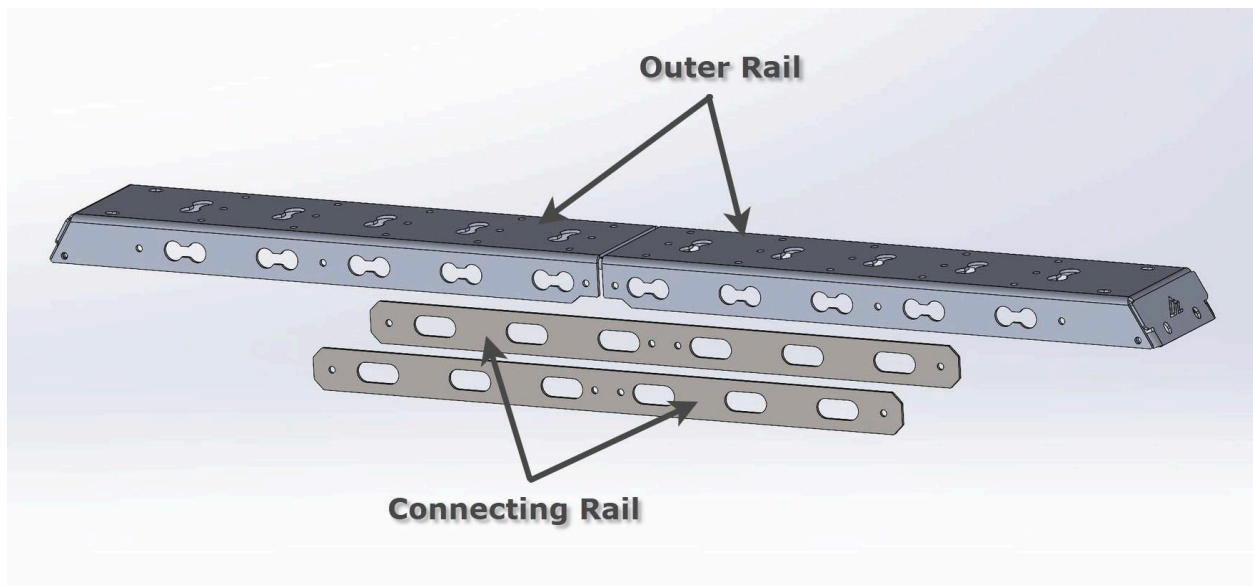

Parts List

• M6x14mm Button Head Bolt	Qty 24 pcs
• M6 Nylon Lock nut	Qty 24 pcs
• M8x20mm Button Head Bolt	Qty 8 pcs
• M8x14mm Button Head Bolt	Qty 8 pcs
• Front Rails (long)	Qty 2 pcs
• Rear Rails (short)	Qty 2 pcs
• Connector Plates	Qty 4 pcs
• Nut Plates	Qty 4 pcs
• Clamp, Rear (marked R)	Qty 2 pcs
• Clamp, Front (marked F)	Qty 2 pcs
• Foam Padding 115mm long	Qty 8 pcs
• Foam Padding 30mm long	Qty 8 pcs

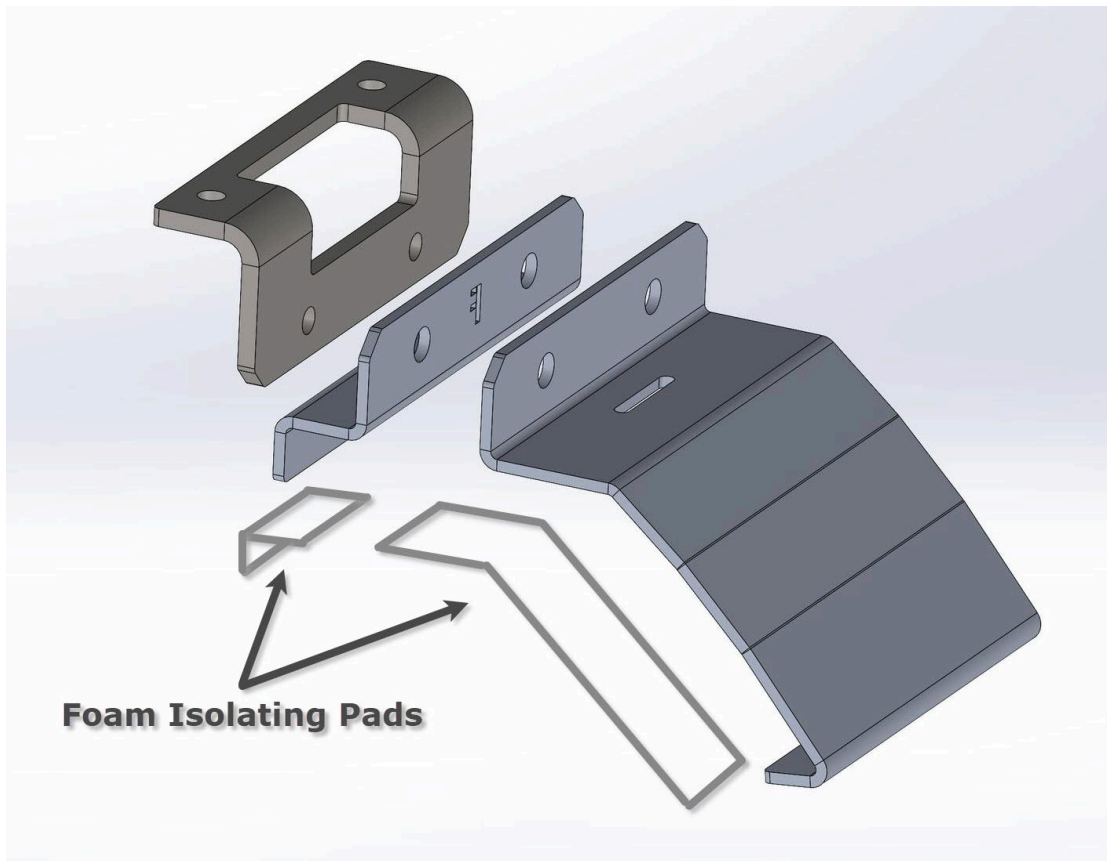

Starting with the front rails, place the connector plates on the inside as shown and install the eight M6x14mm bolts and M6 nylon lock nuts. Also install the four M6 bolts and nuts at the four corners of the rail as shown.

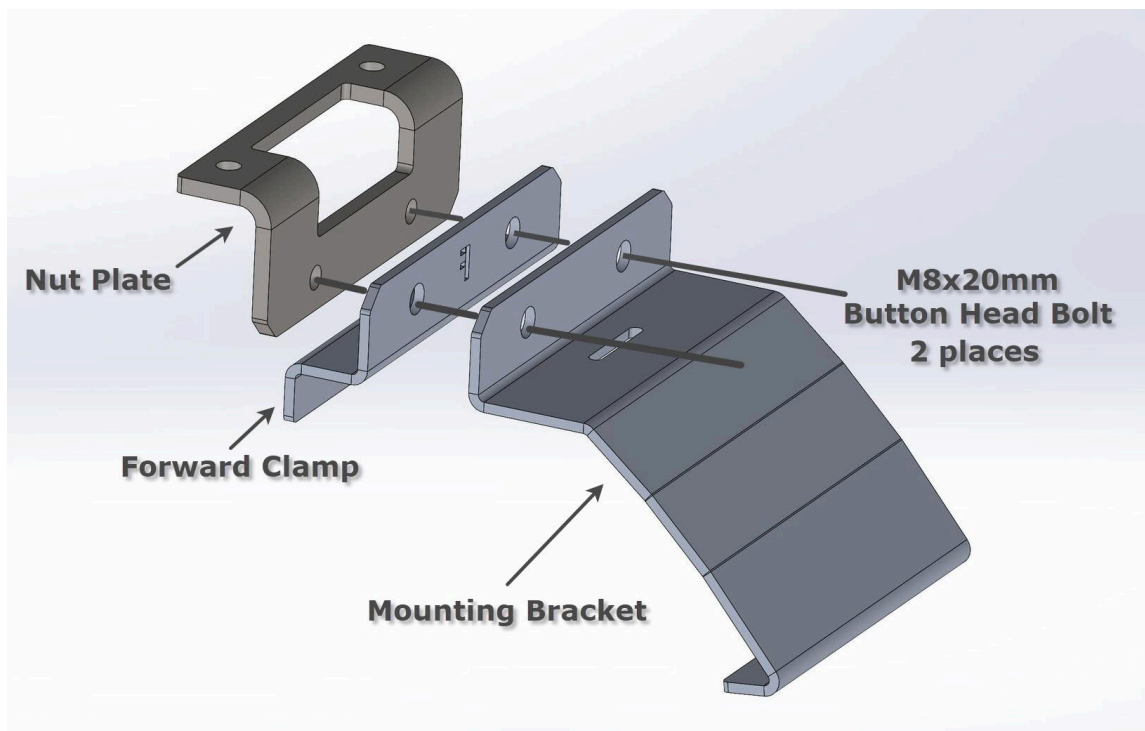

Do the same for the rear rails.

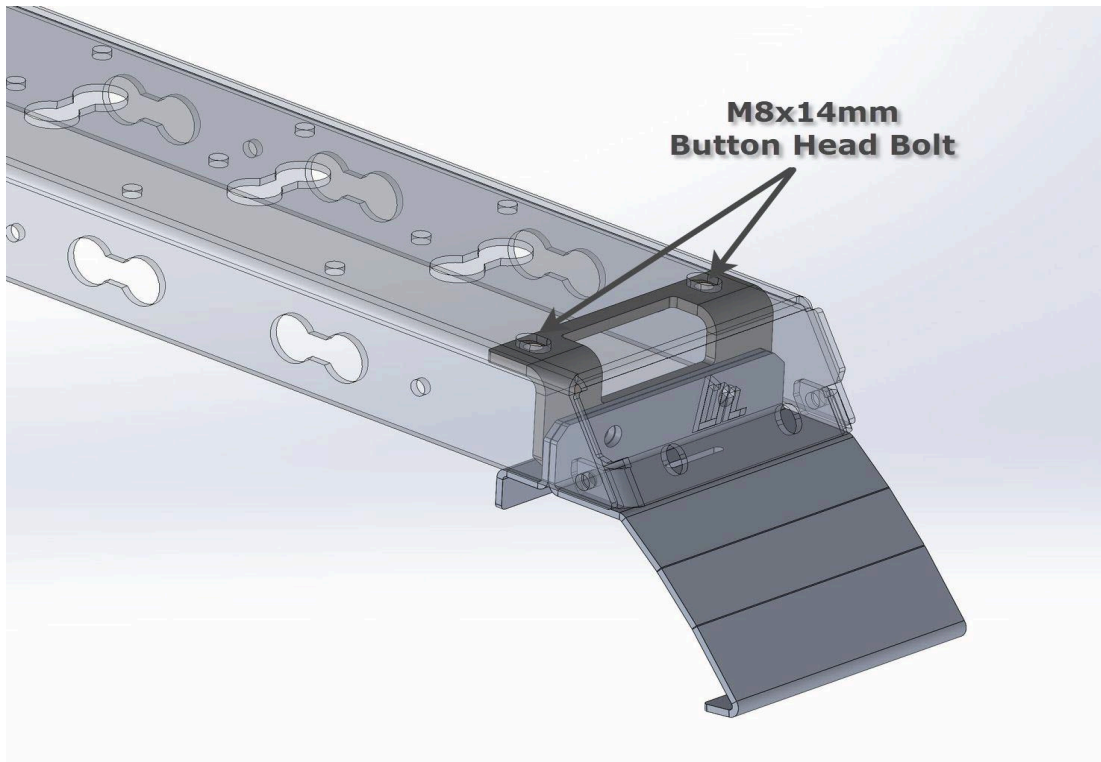

This kit includes Foam Isolator Pads that need to be attached to the underside of the mounting brackets to prevent damage to the hard top. These are cut to size and will attach to the outer edges of each bracket as shown. **Two each per bracket.**

Loosely assemble the Mounting bracket, clamp and nut plate as shown using the M8x20mm button head bolts.

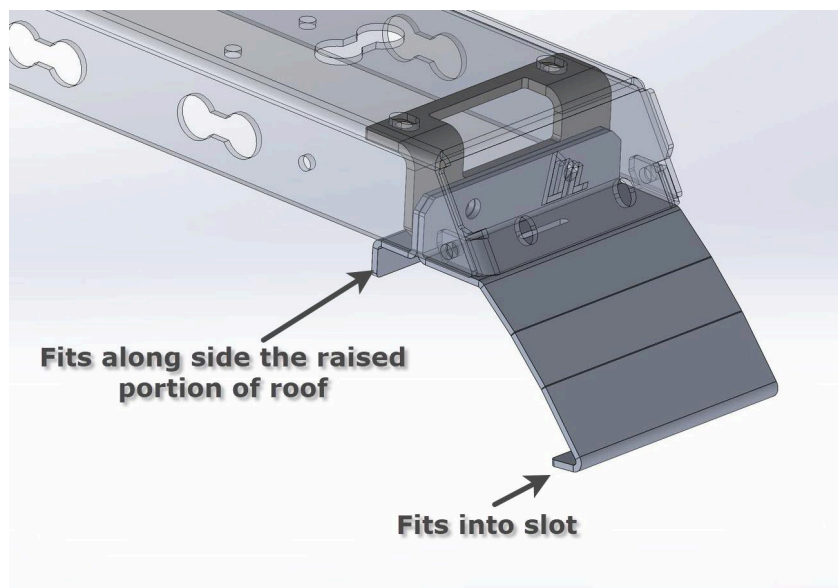

At one end of the rail, loosely assemble the corresponding clamp using the M8x14mm button head bolts. **NOTE:** Your front rail will be longer than your rear rail.

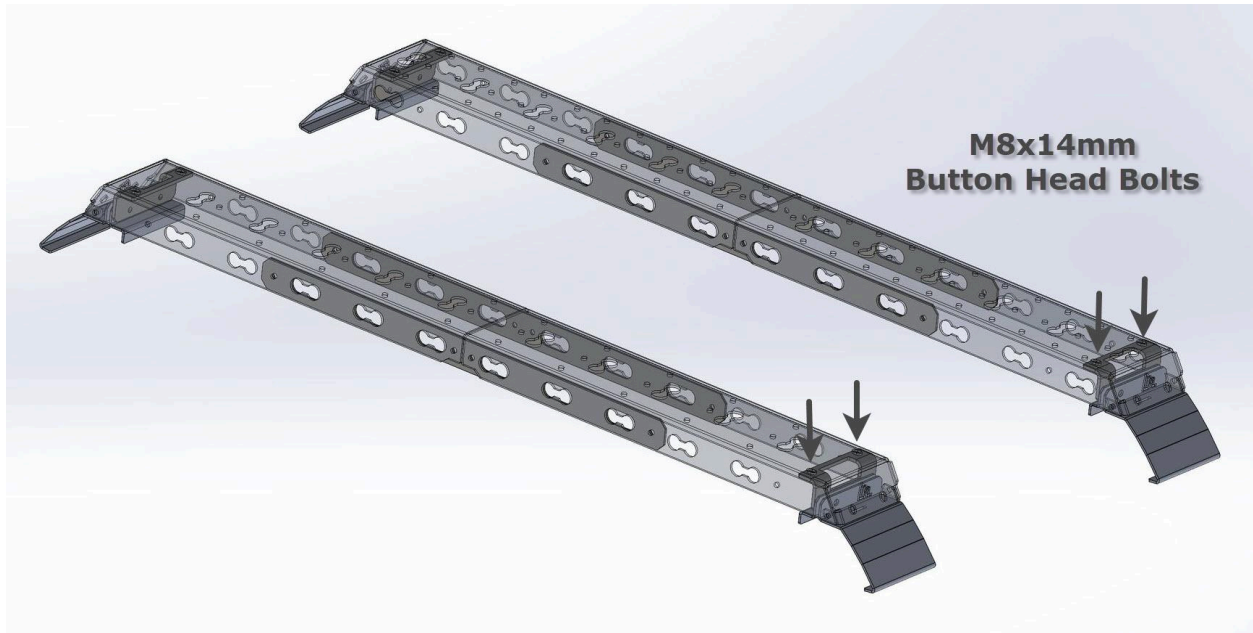

At the rear of the hard top, there are two 4-½' long slots on each side. Place the assembled bracket outer clamp edge into the slot and over the top edge of the roof.

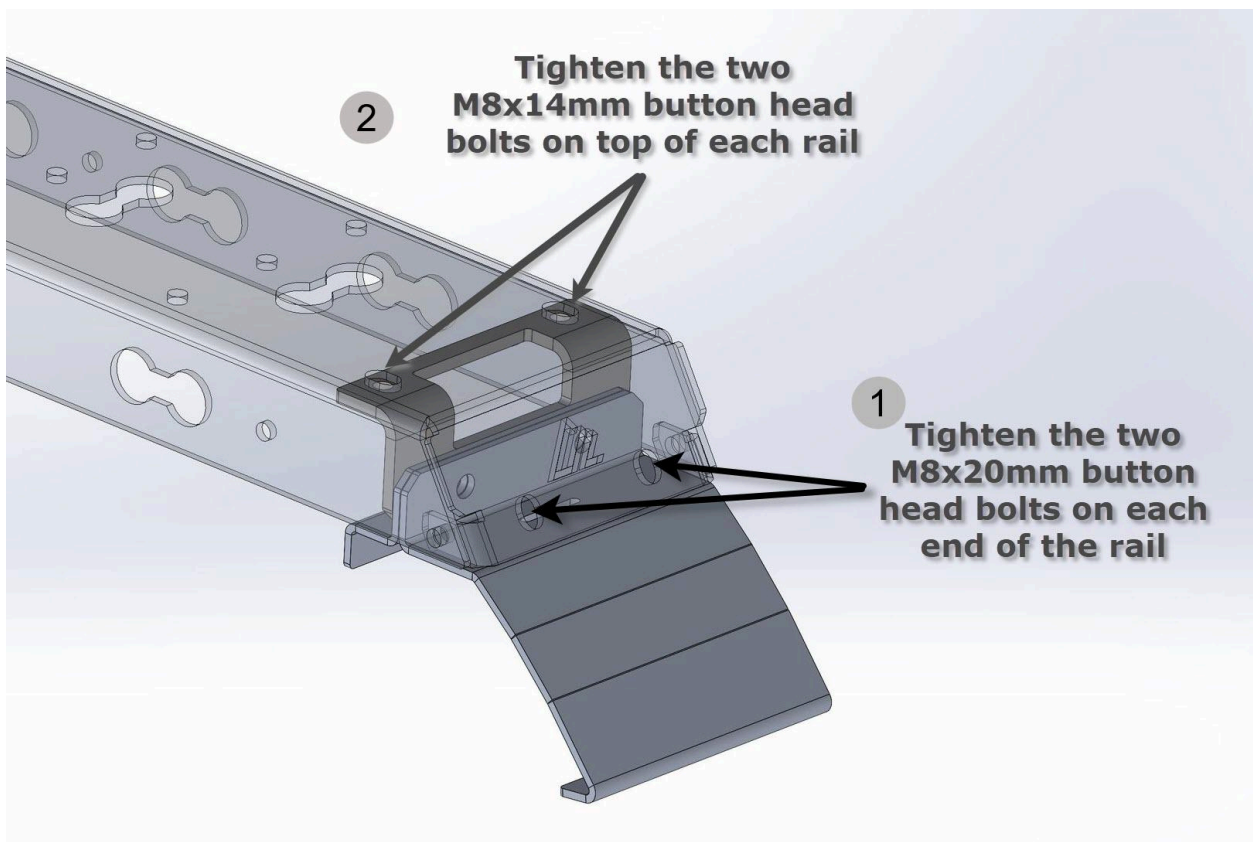

Do this for both the front & rear rails.

Next place the corresponding rail and assembled clamp on the opposite side and over the opposing clamp. Install the two M8x14mm button head bolts in the top two holes

Once you have placed both rails on the roof and are satisfied that they are positioned correctly you may begin tightening according to the steps shown below.

Share Your Photos!

We take great pride in building our products and we hope that pride extends to you after installing your [Insert Name of Product]. If you are able to share your photos online (Facebook and Instagram), please tag **@AmericanAdventureLab**. We would love to see how it turned out and give you some reciprocal attention in return!

Congrats! You're all done!

Thank you!
