

Instructions

JEEP JKU CARGO COMPRESSOR BRACKET

Thank you for purchasing your Jeep Wrangler 392 Cargo Electrical Tray from AAL! We greatly appreciate your trust in our company. We take that purchase and your commitment to us very seriously. If you have any questions along the way, please don't hesitate to give us a call at 385.202.4188.

****Please read all instructions carefully****

**** Compressor and accessories sold separately ****

**** This bracket serves as a cable management space for the 392 battery, it is assumed that you already have an adjacent battery bracket installed ****

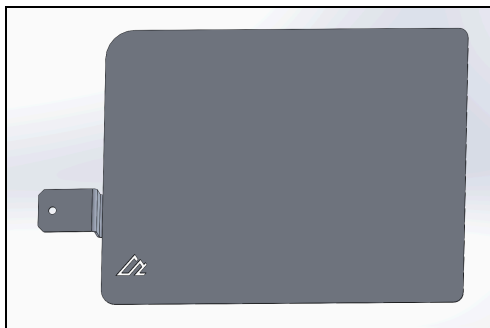

Tools Required:

- 4mm Allen Hex Key

What's included:

Parts

- Compressor racket

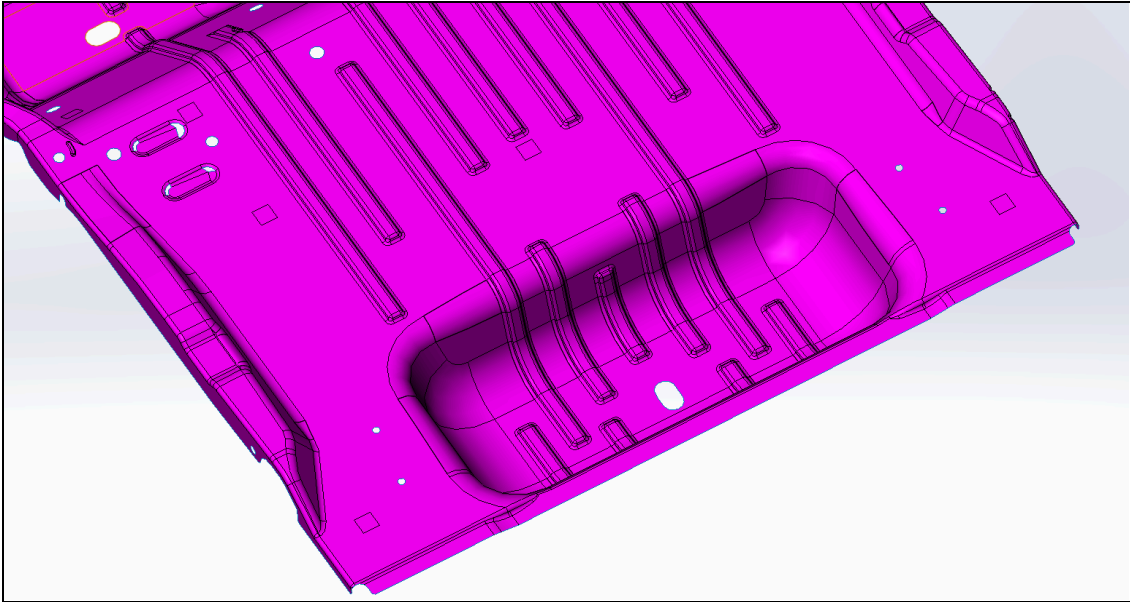

Hardware

- N/A, All bolts necessary are factory and come pre-installed in the vehicle

Step 1 - Clear the Trunk Cavity

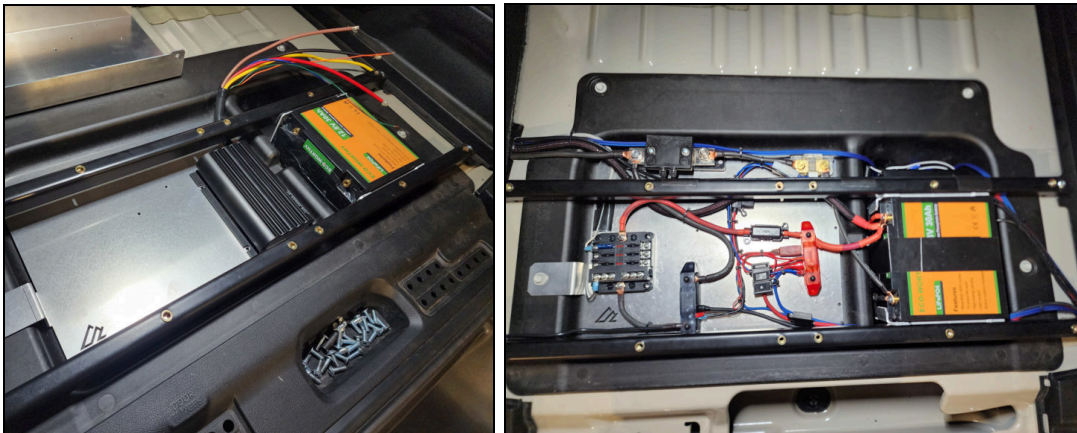

First we need to clear the trunk space to make way for the bracket. If you currently have a MASS Platform installed, remove both of the main platform pieces so that the truckbed is clearly exposed.

Step 2 - Configure Your Cable Management

The next step is to configure the wire management you desire for your battery. We provide space for a REDARC charger as well as other cable attachments as shown below.

NOTE: This does not have to be done in the cavity of the trunk space but it may be more practical

Step 3 - Install the bracket

Once your cable management and accessories are all properly attached, you can install the bracket. There is only one bolt required to fasten the bracket to the vehicle. Simply use the factory Pan Hex Head Bolt on the upper left side of the cavity and fasten the tab into place.

Share Your Photos!

We take great pride in building our products and we hope that pride extends to you after installing your Jeep Wrangler 392 Cargo Electrical Tray. If you are able to share your photos online (Facebook and Instagram), please tag **@AmericanAdventureLab**. We would love to see how it turned out and give you some reciprocal attention in return!

Congrats! You're all done!

Thank you!

At American Adventure Lab, we strive to improve anywhere we can. If you experience any issues with this product or have any suggestions, please let us know.

If you have any questions or concerns, please don't hesitate to reach out to us at 385.202.4188 or via email at Support@erp.adventurelab.com.
