JL REAR SEAT DELETE-LOW PROFILE

Thank you for purchasing the Rear Seat Delete-Low Profile from AAL! We greatly appreciate your trust in our company. We take that purchase and your commitment to us very seriously. If you have any questions along the way, please don't hesitate to shoot us an email at sales@americanadventurelab.com.

Tools Required:

There is more than one tool for every job, but below is the list of tools we use for this installation.

- 1/4" Drive Ratchet
- 18mm Socket
- 8mm Allen Socket

Identify Hardware Included

- (42) Aluminum Spacers (6 for each bolt)
- (2) Regular spacers (for the front seat bolts)
- (2) M10 x 50mm Hex Head Bolts
- (8) M10 x 50mm Button Head Bolts
- (2) Pieces of edge guard

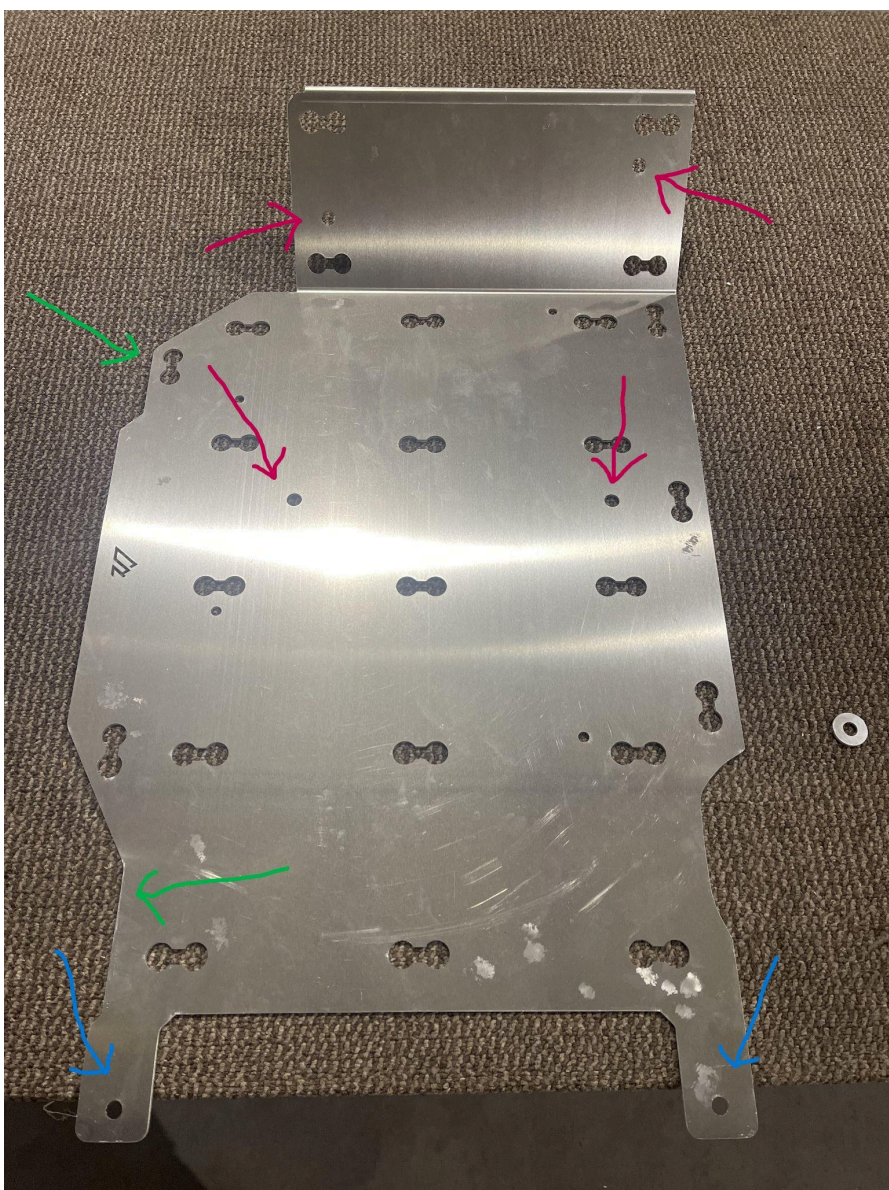

Step 1: Remove the Rear Seat and the 2 Rear Bolts on Your Front Seat Bracket

1. Depending on what side you are planning to remove or both. You will need to remove the 4 seat bolts on the side you are “deleting” and there is a bracket in between the two seats that will need to be undone as well. Once the bolts are removed you should be able to remove the seat(s) for the vehicle.
2. Remove the 2 rear bolts from your front seat bracket.
3. Here is a link to removing the seats. <https://cheaperjeepertv.com/wrangler-jl-rear-seat-removal/>

Step 2: Identify Where the Hardware Goes

1. Blue arrows are for the 2 Hex head bolts, they will get 7 washers underneath each and they will also get the real one above the platform.
2. The red arrows are for the 4 button head bolts that will each get 7 washers underneath them.
3. The green arrows are for the optional edge guard pieces so that it won't scratch the plastic trim.

Note: Because there are so many Washers that need to go under each Bolt we recommend taping them Together so that they stay in place When installing the platform.

Note: This is how the bolts would look when installing them to the Jeep.

Step 3: Line it all up and Bolt it Down

Congrats! You're all done!

Thank you!

At American Adventure Lab, we strive to improve anywhere we can. If you experience any issues with this product or have any suggestions, please let us know.

If you have any questions or concerns, please don't hesitate to reach out to us via email at Sales@AmericanAdventureLab.com.
